

## Category 5e U-UTP Bare Copper Cable

Category 5e Unshielded Twisted Pair (UTP) cable using 4X24 AWG-250Mhz solid bare copper conductor insulated with polyolefin structure, it confirms to ANSI/TIA/EIA-854-2001 standard. More than capable of supporting protocol's up to 250 MHz for horizontal and backbone installations.

### Features

- Bare solid copper Conductor
- Color-coded PE insulation
- Center Cross: PE
- Operating temperature: -10°C to 60°C

### Technical Specifications

Parameter	Values	
Conductors	AWG	24
	Size mm	0.50 ± 0.01
	Material	Solid Bare Copper
Insulation	Diameter mm	0.88 ± 0.05
	Material	PE
Jacket	External OD	5.0 ± 0.3
	Material	PVC

### Ordering Information

Part Code	Description
3C-C5US24GY-3	Category5e U-UTP Bare Copper Cable(Roll of 305m)
