

Fiber Optic Outdoor Enclosure

Fiber Optic Enclosure is usually used with outdoor fiber optic cables, provides space for the outdoor fiber optic cables to be spliced fiber and the joint parts of the outdoor fiber cables. Generally the fiber optic splice closures are dome type and horizontal types, and Horizontal Fiber optic Splice Closure is used more often.

Feature

- Seal way: Rubber seal
- The use of high-strength engineering plastic shell that can endure harsh conditions such as vibration, impact, tensile cable distortion and strong temperature changes
- The use of reusable components to open seal in order to ensure a good airtight waterproof performance.
- Does not require special tools, easy to install and open the duplicate.
- The scope of application: aerial, direct-buried, wall-mounting, duct-mounting,

Technical Specification

Parameter	Value
Product size	465*200*122mm
Product material	PC(Polycarbonate)
Product weight	Approximately 2.5kgs
Suitable Dia of cable	8-20mm
Fibers/Tray	12 / 24F
Max capacity(F)	48F
Carton packing Size	50*40*56CM
Each packing quantity	8 EA

Ordering Information

Part Code	Description
3C-FOE-Y- ZZ	Fiber Optic Outdoor Enclosure

Y- (2, 3, 6 – cable entry)

ZZ- (12, 24, 48.... Fiber Cores)
