

High Density Fiber Optic Patch cords, Multi Mode

High density patch cords feature high density, small form factor LC connectors mated to 2.0 mm round duplex cable. They are used to connect switches or network devices in fiber networks directly or interconnect structured cabling systems in a fiber network.

Features

- True Uniboot (one boot) design
- Optional push/pull tab
- Flexible plenum rated jacket
- Bend insensitive fiber
- Available in OM3, OM4
- 100% optical testing
- Extreme Low Loss (XL) and Low Loss (LL) performance options
- Covered under 3C3[®] Performance Warranty

Specifications

Insertion Loss	: ≤ 0.25dB
Return Loss	: ≤ 0.25dB
Durability	: 500 Mating
Repeatability	: < 0.20 dB
Operating Temperature	: -40°C to +75°C

Ordering Information

Part Code	Description
72C30-XXXX	High Density High Link LCU to LCU Fiber Optic Patch Cord, Duplex C = (3 – OM3, 4 – OM4) XXXX – Length in Decimeter
